**** Special Price Protection Programs Available****

Dear Valued Customer:

Palisades Fuel has been helping our customers save money by offering Price Protection Programs for over 25 years. Palisades Fuel is honored and grateful to continue to serve you and your family, during these unprecedented times. It would be an understatement to say that the COVID-19 crisis, exacerbated by many other factors has changed the world's economy.

Our programs have allowed customers to save significantly on their heating oil costs. The attached chart shows examples of savings realized by actual customers from this past season. *You can make a choice to lock-in your oil price now at rates that are less than current oil prices.

You may also purchase "Downside Insurance" which cost has increased due to the uncertainty of today's oil market.

Our support team is available to answer any questions and to help you sign up at (914) 945-0645 or customerservice@palisadesfuel.com. Learn more about our overall commitment to providing the best services for all of your energy needs at <https://palisadesfuel.com>.

Thank you for choosing Palisades Fuel. We are committed to being your partner and providing the best service and care to you, our family of customers, in all the days and years to come.

Sincerely,

The employees of Palisades Fuel.

*Pricing is subject to change. Pricing is not "Locked-in" until your signed enrollment is received and accepted by Palisades Fuel. Other terms and conditions apply, see enrollment contract for details.

AVERAGE PALISADES CUSTOMER SAVINGS SHEET FOR CONTRACT YEAR
